

APT – Logan Rath

Draft Renewal Letter

Logan Rath continues to be a most productive and helpful member of our library faculty. While he continues with some of the duties he performed as Digital Services Librarian, such as serving at the reference desk and conducting library instruction sessions, since last September, when his job title became Resource Sharing Librarian, he has been responsible for the supervision of our interlibrary loan operation, and for the training and supervision of our student assistants at the reference desk. He also continues to be active in scholarship in service. Overall he is a most energetic and productive librarian!

He is an innovative person, active in working on projects that will advance patron success, for example managing improvements to our ArticleLinker service, collaborating with other staff on upgrades to the LITS web pages, modifying his instruction to be more active-learning based and much more as well.

In scholarship he has worked on some major grants, e.g. helping to secure a \$5,000 grant for exploring transliteracy, a project done in conjunction not only with staff at Brockport, but at Geneseo as well. He has given a number of presentations, at the fall 2011 IDS Conference, SUNYLA 2011 and and local venues also, for example giving several programs at CELT.

In service he has been working hard too, serving as the College Senate Parliamentarian, member of the campus Web Committee, a mentor in IDS, delegate to SUNYLA and more.

Logan is an energetic and active librarian, a cheerful and helpful colleague who we whole heartedly recommend for renewal of contract.
