Logan Rath, *Logan*

On behalf of the State University of New York Librarians' Association (SUNYLA), I want to thank you for your service in support of this year's conference. You were a great help with program planning, providing excellent insights on conference tracks and sessions. But, most importantly, your coordination of the registration efforts, including managing the registration database, helped facilitate communication amongst the entire SUNYLA Conference planning team. Not only did you manage the registration database, but you created reports that helped session presenters know who was attending their sessions, and made sharing information between local arrangements as efficient as possible. Your work as coordinator of registration is a testament to your skill with information technology, and your ability to anticipate and respond to the needs of users and colleagues with appropriate and easy-to-use technology is a rarity. Thank you for your service.

Sincerely,
