

Dear APT Committee,

I'm writing to support Logan Rath's renewal as a faculty librarian at Drake Memorial Library. Logan has proven himself to be a valuable contributor to the Library and the College, and should be allowed to continue at Brockport.

For the past few years, Logan has supported the patrons and staff as our Digital Services Librarian. This role had reference and instruction responsibilities as well as technical and Logan performed well in both areas. Logan has taught a significant number of library instruction classes for different departments and is well respected as an instructor. His technical skills are also recognized as evidenced by his stint as the LITS webmaster.

This fall, Logan assumed a new role as Resource Sharing Librarian with responsibility not only for ILL, but also for training and managing student workers at the information desk. Logan has only been in this role for a short time, but is already having a positive impact on library patrons as a result of his work in these areas. This change also illustrates Logan's ability and interest in taking on new responsibilities at Drake in support of patron needs.

In short, I recommend that APT strongly consider renewing Logan, as he is a valued colleague and librarian who has made positive contribution to Drake, the College and his profession.

Regards,

Robert Cushman
Head, Library Technology
The College at Brockport
