Brockport, NY 14420

Dear Ms. Little & Mr. Rath,

Thank you for allowing the Advanced Placement classes from Medina High School to come and visit SUNY Brockport's Library. The other teachers and I think this was a priceless experience for the students. You were both excellent instructors to our students and gave a great overview of college library operations. Thank you for being very helpful and patient with our students; and for demonstrating how to use databases and other resources that pertain to their topics. They will definitely use the resources they found to assist with completing their end of year projects. Thank you Logan for putting together the Research Guide for the Bird Project; I plan on showing them that next week along with the resources we have in the high school library. We all appreciated that you both stayed with the groups the whole time we were at the library, ensuring each student accessed meaningful resources. I know each student left Brockport with a better understanding of the resources, procedures, and atmosphere of a college library. This would not have been possible without your efforts.

Thank you again,

Jennifer O'Toole- *Library Media Specialist*
Jon Sherman- *AP Biology*
Elizabeth Dickhut- *AP English*
